Mr. Blackman,

After my initial meeting with you I must confess that I had some reservations about the effectiveness of your odor removal system. Now that several of our communities have used your services, all that I can say is that the results have been phenomenal. One particular apartment had an extremely strong smoke smell that was so severe that the odor was noticeable in the adjacent unit; your service totally eliminated this issue. Each time that you have done work at one of our communities I have received positive feedback regarding the effectiveness of your system and the prompt, efficient manner in which the service was provided.

That being said, I would recommend your services for tough odor removal situations without reservation.

Sincerely,
